

## SPORTS PHYSICS 2024

### Guide for abstract submission

In order to facilitate the work of the organizers when producing the abstract booklet, please follow these simple rules :

- Modify the template *Abstract.tex* with your own contribution.
- Use the *header.tex* and *footer.tex* files to compile your contribution, but **please do not modify them** since these modifications will not be taken into account when the final abstract booklet is produced.
- Submit the abstract as a pdf and add the production files (main tex file plus figure if any) **as a zipped folder** in the “Supplementary data” choosing “Other” as the type.
